• **Who**

The PA Coalition of Medical Assistance MCO's (PAMCO), Health care providers, Social Service Agencies and Community Leaders will participate in a roundtable discussion on Gov. Rendell's 2008-2009 Budget and the potential impact on access to affordable, high-quality health care for the underserved.

• **What**

As health care costs continue to rise and the reform debate intensifies here and across the nation, PAMCO and a host of providers will focus on access to care for the traditionally underserved in our region.

• **Why**

"The challenge we confront is to ensure that all Pennsylvanians have access to high-quality, affordable health care. The governor's budget proposal and his healthcare reform agenda will obviously have a tremendous impact on how we provide care to our neediest citizens."
